

WM101

A refreshingly different approach to waste management.

Acting as your own specialist waste department, WM101 offer a unique approach to waste and recycling, with a team of Account Managers creating bespoke site by site solutions for clients committed to a more environmentally sound approach to waste management.

WM101 implement waste and recycling solutions for many UK businesses from large corporate organisations to individual restaurants, pubs, shops and offices. In all cases ensuring the ongoing management of waste remains compliant and on budget.

WM101

Environmentally responsible waste management solutions that put the customer first - ensuring compliance, saving money and guaranteeing peace of mind.

With our extensive knowledge of the waste and recycling industry, WM101 arrange the collection and monitoring of all waste streams from any site nationwide. Where there is potential value in the recyclable material, WM101 look to maximise rebates for clients ensuring these are passed on or are offset against any waste costs.

Operating nationwide, WM101 has established strong relationships with hundreds of waste and recycling contractors, meaning we can administer a truly independent service. No matter where your sites are based, our dedicated, customer focused team will devise and operate a waste management plan expertly and efficiently.

A one stop solution for all your waste management needs!

WM101 Benefits

- Savings in time and money
- Hassle free service
- Legislatively compliant
- Full control and monitoring
- Client focused solutions
- Independent expertise
- Multiple waste streams
